## Aletheia Group weekly newsletter

Volume II, Issue 32

“Righteousness exalts a nation, but sin is a reproach to any people.” (Proverbs 14:34)

*“Our nation is on the brink of self-implosion. The financial crisis America is facing is a mere symptom of a deeper spiritual morass that has been building up for generations. Only spiritual revival will save America.” –Dave*

Now that Barack Obama has been reelected, it is time for the Church to face some aletheia truth and tough love. I have kept pretty much mum on the national election results because I wanted to digest all that has happened and all that is being said. But now it is time to move forward on the only path of redemption for our once-great land.

There are far too many subjects to tackle in just one newsletter, so expect a flurry of them to come out between now and New Years. As we enter the holiday seasons of Thanksgiving and Christmas, it would serve us well as a nation to look at the reasons for the season and be reminded that as one nation under God, blessed by His Almighty Hand, that our Father's holy benevolence and protection is conditional.

We cannot keep murdering babies at the rate of a 9/11 attack every day, support

candidates who support the killing of those babies conceived under unfortunate circumstances, and believe that God will allow us to have the leaders we think we want. Such was the candidacy of Mitt Romney.

Now this is not going to be a Mitt Romney bashing marathon. I've already made clear these last 16 months why I would not vote for Mitt Romney. I am more concerned with how we got to the point of nominating such an obviously flawed candidate. But that will be covered in future issues.

Right now we have a much bigger problem on our hands. His name is Barack Obama, but be there no doubt that what he has done has not been avoidable. We have only one seat of power remaining to us to stop Obama's leftist agenda, and it's going to take us to steel their resolve.

Let's revisit the purpose of the House of Representatives...

# FROM THE FOUNDERS

**The House of Representatives is the people's house. It is in this chamber that all revenue is raised and allocated. It is so because WE the People are the ones from whom the revenue comes in the form of taxation. If we do not steel the resolve of the GOP-led House, then America will be unrecognizable in 4 years.**

*"What prudent merchant will hazard his fortunes in any new branch of commerce when he knows not but that his plans may be rendered unlawful before they can be executed? What farmer or manufacturer will lay himself out for the encouragement given to any particular cultivation or establishment, when he can have no assurance that his preparatory labors and advances will not render him a victim to an inconstant government? In a word, no great improvement or laudable enterprise can go forward which requires the auspices of a steady system of national policy." Federalist #62*

If Congress in general, and the House of Representatives specifically, is actually serious about aiding small business in creating more jobs, it must get government out of its way. You cannot implement the job-killing, income-raiding universal healthcare system known as ObamaCare and expect a vibrant economy.

Furthermore, a small business owner, or a corporate CEO for that matter, is not going to venture out into the unknown economic waters while Washington bureaucrats are defining new ways everyday of stifling economic growth.

Businessman are wary and layoffs have already begun before Obama has begun his second term. Congress has done nothing to alleviate the fears of business leaders by standing on the same ground that they did prior to the election.

Confidence in our public leaders has never been lower. The House of Representatives can bring a radical change to the way business is done in Washington. It can stop enabling our spendthrift president and his cronies in the Senate. The House of Representatives must not give in anymore to unconstitutional legislation that is intrusive to the private sector and results in income redistribution.

This is their job.

# FROM THE PULPIT

“Friend, you cannot legislate the poor into freedom by legislating the wealthy out of freedom. And what one person receives without working for, another person must work for without receiving. The government can’t give to anybody anything that the government does not first take from somebody. And when half of the people get the idea they don’t have to work because the other half’s going to take care of them, and when the other half get the idea it does no good to work because somebody’s going to get what I work for. That, dear friend, is about the end of any nation.”  
Dr. Adrian Rogers, [1984](#)

That great quote from the late Lion of the Faith Adrian Rogers some 28 years ago was prophetic in that it was spoken when it was “Morning in America Again.” But even back then, the signs of entitlement addiction through government pushers was well on its way to destroying our nation from within.

While we rightly lament the growing deficit and astronomical debt our posterity is facing, we must face the facts about how we got to where we are today. In August 2011, the Republican controlled House of Representatives voted to increase our debt limit to \$14.3 trillion. As Dr. Rogers said, the government has taken away from someone to give to others. That someone being taken from are our children and grandchildren.

The Bible is clear about indebtedness:

*“He who is surety for a stranger will suffer, but he who hates surety is secure.”*  
Proverbs 11:15

It is beyond time to pay down our national debt. Our only chance of doing so is complex. It will take changing the hearts of many. To believe you are entitled to material goods from the government off the backs of hardworking citizens is nothing less than sinful. This type of behavior should be shamed and shunned, not sanctioned by the government.

So it starts with you and me. What am I receiving from the government at the expense of others? Whom in my circle of friends, relatives, associates, and neighbors are on the government dole? Let’s help them to see a better and more godly way to life than relying on the government to meet their needs.

# TO THE STREETS

WE the People must get busy immediately beginning tomorrow when Congress returns by informing them we are no longer going to suffer under their tyranny. We must hold our elected officials responsible for the role they've played in this mess, beginning with the Speaker of the House. Here are some steps we all need to take:

1. Demand that Speaker of the House John Boehner step down. He has been a colossal failure and is the largest enabler of government largesse within the Republican Party. [Contact](#) the Speaker's office and tell him you no longer have confidence in his leadership abilities and are calling for his resignation.
2. [Contact](#) your US Representative and demand that he or she not vote for John Boehner to be retained as Speaker of the House. Politely inform the congressional aide that a vote for John Boehner will be considered a large strike against them.
3. [Contact](#) your two US Senators and tell them that you are no longer willing to bankroll their excessive spending habits that reward the lazy and illegal.
4. [Contact](#) the White House and tell them that Barack Obama does not have a mandate to continue to recklessly spend our children and grandchildren's future into oblivion. Tell the operator that you want to let Mr. Obama know that we will not stand by and suffer under another four years of Obamanomics.
5. Do not let your guard down. We cannot go back to our normal workaday lives, tuning into American Idol and tuning out of the political scene. We must be more vigilant than ever before. Our time is short. It is up to us.

The question that must be answered is if America is going off the cliff; if she is coming to the end, will you and I keep rowing even as we go over the falls? Will we keep fighting until we can't fight anymore? Our children and grandchildren are counting on us. If we fail, we have only ourselves to blame.

Stay tuned for more ways for us to take active measures to stop our nation's slide.
