“A false witness will not go unpunished, and he who speaks lies shall perish.” (Proverbs 19:9)

*“Marco Rubio has either been lying directly to Americans, is double-minded, or has been completely duped by Chuck Schumer and the rest of the Gang of Eight. Either of the three reasons for his support for this scamnesty bill are unacceptable.”*

### UNSHACKLED

**WE** the People are being lied to. We are being lied to by the very people we send to Congress to represent us. The worst of this disturbing news is that this has been happening for a long time. The question is, when are we going to stop settling for such evil.

The latest lie to be perpetrated upon the American people is the Gang of Eight's immigration bill that is being rammed through the Senate. Once again we have a 1,000+ page comprehensive bill filled with fillers and fallacies that the most experienced legislative expert could not identify. Always remember when you hear of comprehensive legislation understand that it is actually confusing and corrupt.

The most upsetting part in this latest congressional fiasco, particularly to we Floridians, is the role Marco Rubio is playing. From his Human Events [article](#):

“I understand the American people's frustration. I know that these promises have been made in the past. But here's the reality of it: the choice before us is to try to fix this, or leave it way it is and risk an even bigger problem due to Washington's inaction. What we have today is a disaster of epic proportions.”

Nice try Marco, but I'm not drinking the Compassion Kool-Aid. The fact is the laws in place right now can do all of which this bill offers, except needing more border patrols. And if all we need to do is build a fence (of which legislation and funding was already passed and ignored), then let's build it already. And if all we need is new technology, then let's provide that.

As far as a pathway to citizenship, the law already provides this and I've met an Immigration Attorney who has had such a law practice for 20 years.

Then there is enforcing the existing law...

# FROM THE FOUNDERS

**Whenever you hear a member of Congress say that something must be done, grab your wallet and gun, in that order, because you are about to be robbed. No doubt our Founding Fathers would have taken such prudent action.**

“In the legislature, promptitude of decision is oftener an evil than a benefit. The differences of opinion, and the jarrings of parties in that department of the government, though they may sometimes obstruct salutary plans, yet often promote deliberation and circumspection, and serve to check excesses in the majority.”  
Alexander Hamilton, [\*Federalist #70\*](#)

We are being told that we must act, rashly I might add, because we must do something about our broken immigration system. Of course, we know from experience that when we enforce the current labor laws, the current deportation policies, and use the existing law for a pathway to citizenship for illegal aliens, then the system is not as broke as being advertised. Perhaps if we would complete the fence that was already legislated and funded we would have slowed the flow of illegal aliens. Congress could easily provide funding for extra border patrol agents and technology to aid these great American heroes.

The cat was actually let out of the bag by none other than Sen. Lindsey Graham (R-SC) recently on [“Meet The Press”](#):

“We’re in a demographic death spiral as a party, and the only way to get back in the good graces with the Hispanic community, in my view, is to pass comprehensive immigration reform.”

Imagine anyone of the [original members](#) of the Senate or House of Representatives stating such a reason for any type of legislation. Censure by his colleagues would have been considered a light rebuke. Expulsion would most likely have occurred.

# FROM THE PULPIT

“There are some who feel that lying can be the ‘kind’ thing to do in order to avoid conflict. But lying is a very serious matter. Trust lost may never be regained and so many will lie much more than they originally intended to try to cover their "small" lie. They have to keep telling bigger lies to cover their previous lying...There is not much sin warned against in the Word of God more serious than lying. I believe that there is not much that is more offensive to God than a liar.” Pastor Steve Winter, “Sin of Lying” [sermon](#), September 27, 2001.

Whenever Congress does something so obviously contrary to the will of the people, it is always good to “follow the money.” Voting statistics prove that the “Latino” vote breaks Democrat by a 3-to-1 ratio. So explaining that the GOP has to do this to save the party are false. And to make the case that we can win them over to our side is like saying you can win most union families over to the GOP. Many of these voters vote Democrat because their families always have.

Who are some of the “civic” organizations that are in support of the current immigration legislation. The primary organization is the U.S. Chamber of Commerce, having just this past week spending a significant amount of money on [advertising](#). What could the USCoC have to gain from a large influx of cheap labor?

Many religious organizations have come out in favor of some form of amnesty for illegal aliens that have become “vital” members of their communities. I have no problem with these communities “vouching” for such people. That is why I supported Newt Gingrich in 2012 because he had the most sensible and realistic [plan](#) on dealing with this issue.

The problem is realism, honesty, and integrity long ago left most of America, particularly in Washington D.C. We have literally entered into the days of Judges:

“In those days there was no king in Israel; everyone did what was right in his own eyes.” (Judges 21:25)

While it may be true we have no king in America, the case could be made that Obama and Congress are acting like tyrants. That has happened because WE the People have abdicated our roles as citizens and allowed immorality to run rampant. This must change.

# TO THE STREETS

To stop the current slide towards tyranny that Obama and Congress have us on, WE the People must take back the reins of power. We must compellingly, continuously, and contentiously, if need be, remind the members of Congress that they answer to us. They do not answer to their own evil desires, edacious powerbrokers, or even political leaders. WE the People hired them and we can fire them. So here are some steps to take to send this reminder:

1. Get to know the workers in the local office of your Congressman and Senator. Yesterday (June 24) you could not get a call through to Senator Rubio's D.C. office, but I easily got through to his Pensacola office to voice my opposition to the Corker-Hoeven Amendment. I plan on visiting the office very soon.
2. Do not underestimate the power of these phone calls and emails to your representatives. Last week on the Rush Limbaugh Show, Senator Ted Cruz [encouraged](#) Rush's listeners to "pick up the phone and call your Senator and call your House member." When Rush asked Sen. Cruz if this really worked, he answered, "It works tremendously. It is amazing what the grassroots can do." Do not allow the media or politicians to get you to believe this is out of our hands.
3. Consider starting a block/precinct town hall group to get together one a month to discuss important political issues. It's important to know what your neighbors are thinking on the issues. You never know, you just may be able to convert some of them. More importantly, you'll be able to counter the lies with which the press and Washington elites are trying to confuse us. Also check to see if you have any local tea party groups.
4. Please consider [joining](#) the National Federation of Republican Assemblies. Our organization is dedicated to hunting down RINOs and returning the Republican Party back to its Reagan Conservative roots. Many states already have chapters and if not, then we'll be glad to help you start one.

I believe our time is short in our nation. We must return back to the Judeo-Christian principles upon which our nation was founded. That begins with you and me, first in our lives, and then demanding it from those who represent us.
